

Dear Applicant,

Thank you for your **Migration Skills Assessment Competency Demonstration Report** application.

Our assessment has identified that your career episodes have been copied -either from a standard reference work, or from another client's application. This means that your CDR declaration in which you have declared that the Report is all your own work is not correct, and thus does not demonstrate a commitment to necessary professional and ethical responsibilities.

We therefore have no option but to advise that your assessment has been unsuccessful, and that relevant information about your case has been passed to the Department of Immigration and Border Protection (DIBP) for further investigation.

Your documents will remain on file, in the event that DIBP seeks more information.

Yours sincerely,

Mr XXXXXXXXX

Qualifications Assessor, Engineers Australia
